D'ALBON ANDREEA

UI/UX DESIGNER

I'm a UI/UX designer specializing in creating SaaS platforms, E-commerce websites, and iOS applications

My portfolio showcases my human-centered design approach, featuring projects that blend visual appeal with practical functionality, all focused on delivering engaging and intuitive user experiences

My web design journey began academically and has since grown through self-learning. Proficient in Figma and Sketch, I particularly enjoy working in collaborative teams, skillfully blending aesthetics with functionality in every project

PROFESSIONAL EXPERIENCE

↘ Bebsy.nl - UX Designer

- Revamped Bebsy.nl's product page for a better user experience.
- Enhanced hotel descriptions and showcases for easier accommodation selection.
- Introduced a user-friendly booking flow for hotels, dates, and holiday customization.

↘ PackXGen - UX & Graphic Designer

- Designed a fresh, innovative hotel website with a versatile homepage and "Your Journey"/"Checkout" page for desktop, featuring a prominent booking bar and video content options.
- Customizable elements include logo placement and menu positioning, with full-width and boxed layouts, targeting small hotels to emphasize luxury and ease of use.
- Executed in Figma, the design focuses on user experience and seamless e-commerce integration, departing from conventional templates.

↘ Squad Place - UI/UX Designer

- Designed key features for an AI-powered team collaboration canvas, including zoomable department spaces for tracking and collaboration
- Enabled real-time interaction visibility and content management (post, edit, delete, share) for users.
- Introduced an instant live demo button without account requirements, boosting user engagement, and integrated workspace connectivity with Discord for team synchronization.

↘ JakMet - UI/UX Designer

- Designed intuitive UI/UX flows for a chatbot creation platform, including wireframes, prototypes, and high-fidelity designs in Figma.
- Collaborated with developers to ensure design consistency and practicality, and created a trustworthy yet friendly color scheme.
- Followed best practices for accessibility, simplifying complex processes into visually appealing interfaces.

↘ Robles Consulting - UI Designer

- Developed a portfolio and presentation website for Robles Consulting LLC with a clean, user-friendly layout
- Created high-fidelity designs in Figma and collaborated with the team for optimal functionality.
- Selected a color scheme that matched their brand for a professional yet approachable feel.
